Sept. 2022

Department of Veterans Affairs (VA), Office of Mental Health and Suicide Prevention (OMHSP) FY 20 Funding Request, Project Proposal.

“Comparative Effectiveness of Mental Health Apps for Veterans with Anxiety and Mood Disorders” (Co-PIs: R. Bossarte, M. Nock, R. Kessler, W. Pigeon)
(Department of Veterans Affairs, Total Cost: \$2,597,930)

Role: Co-I, Implementation Scientist (5% effort)

- The goal of this grant is to implement a large comparative effectiveness trial and develop a system to match the right digital interventions to the right Veterans with anxiety and depressive (A/D) disorders. It has two aims. Specific Aim 1: Implement a large pragmatic trial that will estimate conditional average treatment effects of 10 diverse free best-practices interventions by randomizing the full sample (n=6,000) with equal allocation (n=500 per arm) to twelve study arms (10 intervention conditions, 1 patient preference condition and 1 waitlist control [WLC] condition). Specific Aim 2: Develop an individualized intervention rule (IIR) using information from the baseline assessment to determine which of the diverse array of best-practice interventions considered in the trial is likely to be optimal for each Veteran in promoting 3-month remission of A/D disorders.

Sept 2019 -
Aug. 2022

Health Resources and Services Administration (HRSA), Fiscal Year (FY) 2019 Opioid Workforce Expansion Program (OWEP)

“Veterans’ Care Access and Preferences for PTSD Treatment in the Community” (PI: E. Finley, Department of Veterans Affairs)

Role: Consultant

- Goal of the Study: To examine the care utilization patterns of OEF/OIF/OND veterans with PTSD and identifying factors associated with their choice of VA or non-VA care setting.

Feb. 2014-
Sept. 2014

Department of Veterans Affairs (VA), Quality Enhancement Research Initiative (QUERI), Locally Initiated Project (QLP)

“Barriers and Facilitators to Care Coordination of Mental Health Services for Pregnant Female Veterans Referred to Fee Based Community Care for Obstetrics and Maternity Care” (QLP 55-040; Department of Veterans Affairs, Total Cost: \$9,776)

Role: Principal Investigator

- Goal of the Study: The objective of this study is to examine the need for suicide prevention and mental health care coordination services, specifically for female veterans, in the eastern region of the state of Missouri, from the VA and community provider perspective.

Feb. 2014-
Sept. 2014

Department of Veterans Affairs (VA), Quality Enhancement Research Initiative (QUERI), Locally Initiated Project (QLP)

“Development of a Toolkit to Support Enhanced Use of Behavioral Rehearsal Methods in Suicide Prevention Training” (QLP 55-038; Department of Veterans Affairs, Total Cost: \$5,080)

Role: Principal Investigator

- Goal of the Study: (1) develop behavior rehearsal materials including small and large group role play instructions, background scenarios, scripts and “observer” feedback forms for use in veteran-specific suicide prevention training with a variety of trainees (e.g., community members, clergy, VA employees to include non-clinical and clinical providers, front line workers; and (2) develop an instructional training manual for trainers that will support the use of behavioral rehearsal methods for use in veteran-specific suicide prevention trainings with a variety of trainees, trainers, and training settings.
